HORSE RIDING BUILDS CHARACTER IN SURPRISING WAYS

The benefits of horseback riding are innumerable and are shared amongst all horseback riders. Horseback riding teaches responsibility to those who ride and even more so to those who take care of horses.

Horse caretakers must know how to care for the horse during times of health and illness. Learning all about horse health, along with tack and farm care, involves a lot of time and responsibility in order to put that knowledge into practice every single day for the benefit of the horse. In

addition, horseback riding teaches patience, discipline, understanding, empathy, compassion, self-control, and dedication. Without these traits, the rider will not go far in their horsemanship studies.

Come ride with us. You will see growth in some of these ways:
