The main event for Spirit Lake folks will occur on Saturday, September 5th, after lunch. Plan to come down for the day, have lunch, see the memorial display for Spirit Lake, watch some slides and movies about our beloved camp and share some stories. We have a Spirit Lake Camp Sign (photo at the bottom) to put up at the bunkroom after all have signed it, and one of the Old Towne canoes rescued from the lake will be there to ogle and sign as well!!! ((See the link below to see the footage showing the last crew up there hauling away the Big Tolly and the canoes that are in the rafters at Meriwether!) Read the next page-- cool video links and photos!!

Honoring Spirit Lake Boy Scout Camp

Cascade Pacific Council has put together a page where you can watch some interesting video about the last trip to the camp and the evacuation of equipment three days before the eruption. You can also see some photos and a story by Pam Bolton - and add your own if you wish. Denny Roberts is also putting all of the collected photos together on a QR coded site for the September event. It will be added to other sites and sent along to you at some point in the future.
